## EDUCATION

### Informatics, Bachelor's degree

Tallinn University

2019 - 2022

## WORK EXPERIENCE

### Full-Stack Developer, Full Time

Nixor EE AS

03/2023 - Present

*Achievements/Tasks*

- **Android Software Development:** Contributed to the development of warehouse product management software for Android, enhancing mobile inventory tracking.
- **Point of Sale (POS) Systems Development:** Worked on front-end and back-end development for cashier systems, with notable clients including Selver and Coop.
- **Camera Systems Enhancement:** Developed a Windows service that integrated Odoo POS with clients' live camera systems, displaying real-time data directly in the video feed.
- **Odoo Module Development:**

**Overview:** Odoo is a versatile suite of business applications for CRM, accounting, inventory, and more. I specialize in developing and customizing Odoo modules, focusing on accounting, financial, POS, and reporting solutions.

**Development Stack:** Proficient in Python, XML, JavaScript, and SQL for Odoo module development and integration.

#### Key Contributions

**Accounting & Financial Modules:** Developed comprehensive modules for invoicing, billing, financial reporting, and managing partner debts with real-time tracking. Integrated with APIs like ERPLY and Billberry, and implemented custom Excel and PDF report generation.

**Product Import & Modification:** Created modules for importing and modifying product data, ensuring seamless integration with existing system.

**Odoo Version Upgrades:** Managed complex Odoo version upgrades, ensuring compatibility and stability.

## SKILLS

Javascript

HTML

CSS

Figma

Python

SQL

Git

Photoshop

Dart

## OTHER ACHIEVEMENTS

### Erasmus + student in Portugal (11/2017 - 12/2017)

*I took part in a 1 month Erasmus + student program where my job was to create a simple website redesign for a local company. At the company's request, I also made changes to an already existing webpage in WordPress.*

### Erasmus + student in Hungary (03/2018 - 04/2018)

*During my second Erasmus + trip I went to a local Hungarian polytechnic school where I completed a quick course about SQL. At the end of the trip, I also made a little website with other exchange students. Since two other exchange students were not from the IT department I also got to teach them how to write basic HTML, CSS, and JS.*

### Military service (07/2018 - 06/2019)

*After finishing high school I went to the military to complete my mandatory training. I was sent to a Reconnaissance Company as a driver, medic, and anti-tank. During the training, I got a lot of experience as a team and how to manage stress in difficult circumstances.*

## LANGUAGES
